## EST. 1938

Established in 1938, Special Lights is one of the most experienced operators in the Australian lighting industry.

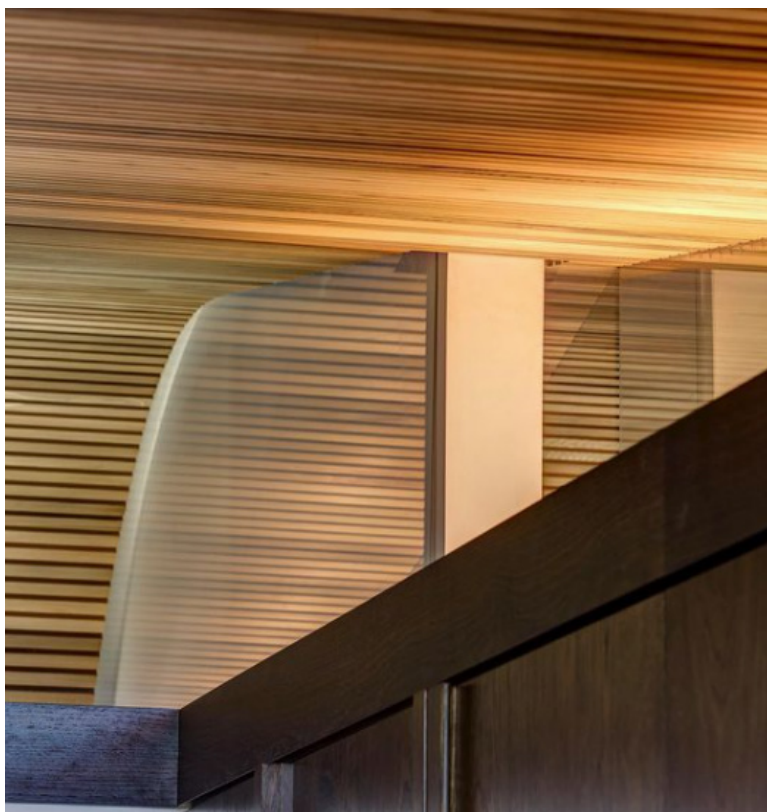

Special Light's reputation has been shaped over the last 80 years by the continuous pursuit of design excellence. This has always been linked to a strong commitment to provide high quality design, service and advice to our clients.

Originally from Vienna and now in Waterloo, Special Light's reputation with European Lighting design houses has grown and flourished into the Special Lights brand we know today.

## WHAT WE DO

The Design Services division of Special Lights specialises in residential projects and their portfolio includes some of Sydney's most prestigious properties as well as national and international projects.

The group works with a broad spectrum of architects and designers. As such, the team is in a key position to see emerging trends in our domestic market. Additionally the design team travels to Europe for the trade fairs to stay up to date on emerging international movements.

The team also works on the creation and design of products for both domestic and international companies.

## DESIGN PHILOSOPHY

At Special Lights we believe that a layered lighting philosophy creates the required atmosphere and flexibility in a space that a client desires, whilst showcasing the architectural design of a property.

When using a layered lighting philosophy the number of light fittings is reduced. These layers can be achieved in many ways and are not always on show or in view. They can be moulded, changed and are led by the design intent of a space.

## MAKING IT HAPPEN

**What we need to commence works:**

- Payment of the design fee.
- DWG files of your project. If this cannot be provided PDF copies can be used.
- A 3D model of your project including currently specified finishes. File types can be: IFC, 3DS or Revit Model.
- Any inspiration images of style, fitting type, lighting effects, properties etc.

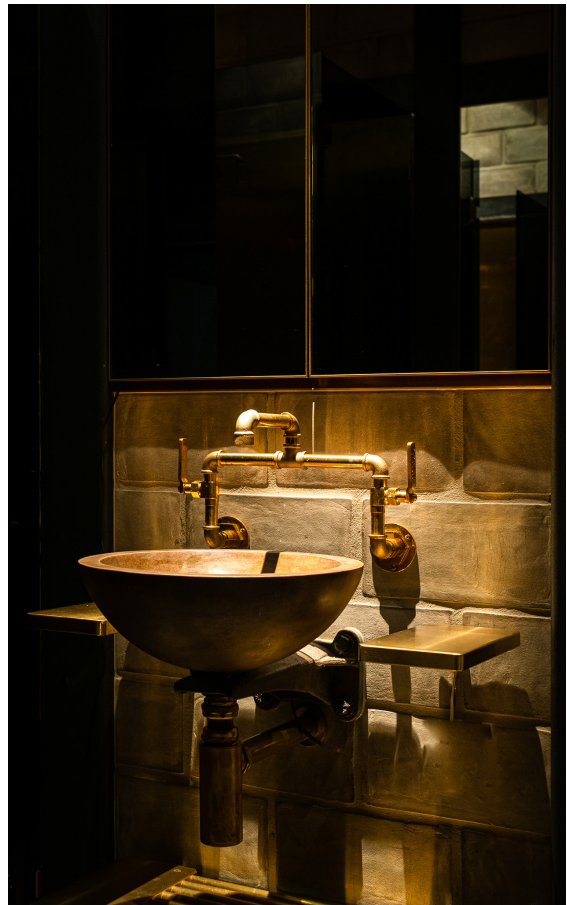

#### **Included in our lighting plan package:**

- Production of a comprehensive draft lighting plan
- Presentation of that draft plan
- 2 revisions of the plan
- 1 project concept presentation
- Renders of lighting effect in selected areas

#### **Pricing**

We maintain long running relationships with many domestic distributors with the aim of providing competitive supply of product. This is passed on to our clients.

## LIGHTING PLAN PACKAGE

As residential lighting specialist our design fee includes a lighting plan package that consists of:

- Lighting plan
- Lighting quotation
- Corresponding electrical notes
- Product specifications
- Indicative detailing
- 2 revisions to draft lighting plan
- 1 site visit in the Sydney Metro area

# PROJECT COORDINATION

**Once your lighting plan is signed off a deposit for supply of lighting goods includes:**

- Liaison with architects, designers, builders and cabinet makers over design elements.
- Meeting with electrical contractors to explain design intent and resolve any issues.
- Sample kit (Products from outside suppliers will require full payment in some cases).
- Further revisions.
- Check measuring LED strip.
- Management of deliveries, stock acquisition and account control.
- Packaging of orders by switching group and space.
